George Ledyard Stebbins

Bibliography
George Ledyard Stebbins—Bibliography

(1) 1929 Further additions to the Mt. Desert Flora. Rhodora 31, 81-87.
(2) 1929 Lomatogonium rotatum (L.) Fries in Maine. Rhodora 31, 143.
(3) 1929 Some interesting plants from Mt. Katahdin. Rhodora 31, 142-143.
(6) 1932 Some interesting plants from the North Shore of the St. Lawrence. Rhodora 34, 66-67.
(9) 1934 (With G.C. Hicks) Meiosis in some species and a hybrid of Paeonia. Am. J. Bot. 21, 228-241.
(10) 1935 Some observations on the flora of the Bruce Peninsula, Ontario. Rhodora 37, 63-74.
(20) 1938 Cyto genetic studies in Paeonia. II. The cytology of the diploid species and hybrids. Genetics 23, 83-110.
(23) 1938 Cytological characteristics associated with the different growth habits in the dicotyledons. Am. J. Bot. 25, 189-198.
(27) 1939 Notes on some systematic relationships in the genus Paeonia. University of California Publications in Botany 19, 245-266.
(28) 1939 (With S. Ellerton.) Structural hybridity in Paeonia californica and P. brownii. J. Genetics 38, 1-36.
(32) 1939 Notes on some Indian species of Lactuca. Indian Forest Records 1, 237-245.
(34) 1940 Studies in the Cichorieae: Dubyaeu and Soroseris, endemics of the Sino-Himalayan Region. Memoirs of the Torrey Botanical Club 19, 5-76.
(38) 1941 (With W. M. Love.) An undescribed species of Silpa from California. Madroño 6, 137-141.
(41) 1942 The role of isolation in the differentiation of plant species. Biological Symposium 6, 217-233.
(42) 1942 The genetic approach to problems of rare and endemic species. Madroño 6, 241-258.
(43) 1942 The concept of genetic homogeneity as an explanation from the existence and behavior of rare and endemic species. Chronica Botanica 7: 252-253.

1945 Evidence for abnormally slow rates of evolution, with particular reference to the higher plants and the genus *Drosophila*. *Lloydia* 8, 84-102.

1947 (With B. Matzke & C. Epling) Hybridization in a population of *Quercus marilandica* and *Quercus ilicifolia*. *Evolution* 1, 79-88.

1949 Speciation, evolutionary trends, and distribution patterns in *Crepis*. *Evolution* 3, 188-93.

1952 (With B.N. Duara) A polyploid obtained from a hybrid derivative of *Sorghum halapense* × *S. vulgare* var. *sudanense*. *Genetics* 37, 369-374.

1952 (With A. Varaama.) Chromosome behavior, fertility, and genetic segregation in synthetic allopolyploids between *Elymus glaucus* and *Sitanion*. *Genetics* 37, 629-630.

1953 (With F. T. Pun) Artificial and natural hybrids in the Gramineae, tribe Hordeae. VI. Chromosome pairing in *Secale cereale* x *Agropyron intermedium* and the problem of genome homologies in the Triticeae. *Genetics* 38, 600-608.

1956. Taxonomy and the evolution of genera, with special reference to the family Gramineae. *Cytologia* and *Cytogenetics*.

1956 The use of plant breeding to increase the world's food supply. *Indian J. Genet. Plant Breed.* 17, 121-128.

1957 Artificial polyploidy as a tool in plant breeding. Genetics in Plant Breeding, *Brookhaven Symposia in Biology*. 9

1957 The role of hybridization in evolution. *Evolution* 12, 266-270.

1958 (With Popov, M. G.) Comments on the origin and phylogeny of the angiosperms, and on the hybrid origin of the angiosperms. *Evolution* 12, 266-270.

1959 (With Popov, M. G.) Comments on the origin and phylogeny of the angiosperms, and on the hybrid origin of the angiosperms. *Evolution* 12, 266-270.

1959 Differences between the process of speciation in higher animals and plants. American Society of Zoologists, Refresher course for 1959, Pennsylvania State University.

1964 Modern evolutionary theory. Origin of Adaptations by Verne Grant, a review. J. Hered. 55, 44.

1965 The experimental approach to problems of evolution. Folia Biologica 11, 1-10.

1965 From gene to character in higher plants. Amer. Sci. 53, 104-126.

1965 Some relationships between mitotic rhythm, nucleic acid synthesis, and morphogenesis in higher plants. In Genetic Control of Differentiation, Brookhaven Symposium in Biology 8, 204-221.

Stebbins 7

(244) 1981 Chromosomes and evolution in the genus Bromus (Gramineae). Botanische Jahrbucher fur Systematik 102, 359-379.

(245) 1981 How it all was: receiving the National Medal of Science. Unpublished Manuscript.

(252) 1982 Floristic affinities of the high Sierra Nevada. Madroño 29, 189-199.

(253) 1982 Perspectives in evolutionary theory. Evolution 36, 1109-1118.

(268) 1985 Rare plants in California's national forests: Their scientific value and conservation. Fremontia 13, 9-12.
